Chaffey College Issues Data On Bond Election

Facts and figures on the approaching Chaffey College bond election on April 17 will be issued in the near future by the college Board of Trustees.

The information, in an illustrated brochure, will explain the purpose of the bond issue, the financing and what will be accomplished.

The Chaffey District Planning Committee, a voluntary group of interested citizens, passed two resolutions unanimously at their last meeting.

The first resolution recommended that the trustees pursue the completion of the college campus to its present student capacity as rapidly as possible. The second resolution recommended that the college present a bond issue to the public for $750,000 with the idea that there would be no additional tax rate.

The Chaffey College Board of Trustees, Arvel Smith, Chairman; Ivan Rebert, Georgia Mellon, Richard Barr and Ralph Miller, issued a statement that they believe the proposed bond election "provides a sound financial plan for the early development of the Chaffey College campus", and urge every eligible voter to cast a ballot at the April 17 election.

The following information is issued by the trustees and the college:

What Is The Purpose Of This Bond Election?

To permit voters of the Chaffey College District to determine if certain campus improvements are to be made at an early date or over an extended period of as many as eight years.

How Will The Bonds Be Financed?

1. The College Board of Trustees has passed a resolution of intention to allocate the $92,000 a year now received from the Chaffey Union High School District to the payment of the principal and interest on these bonds for the next ten years. The term of the bonds will be ten years. Fulfillment of this pledge will eliminate the necessity of any tax for the financing of these bonds.

2. Legally, bonds voted are guaranteed by the assessed valuation of the school district. In case the above resolution of intention by the Board of Trustees cannot be carried out, the assessment rolls of the Chaffey College District will be subjected to a tax rate for the payment of both principal and interest. If this unlikely circumstance should develop, the tax assessment need not exceed 3¢ per $100 assessed valuation.

What Facilities Will Be Provided By The Money From This Bond Election?

A successful election will provide money for the early development of the campus to its current student capacity with the following items:

a. Acres of landscaping with ground cover, trees and shrubs.

b. Acres of pavement with lights on parking lots, roadways, and paths.

c. Completion of air conditioning in all classrooms, library, office and campus center buildings.

d. Maintenance and warehousing storage.

e. 5,000 seats for the stadium.

f. Handball courts and Athletic field development.

g. Team dressing rooms and storage.

Money from the bond election cannot be spent for current operations and, according to the Education Code, must be spent for capital outlay items such as those listed above.

What Are The Advantages Of Voting Bonds Over Development Of Campus On A Pay-As-You-Go Basis?

1. Money invested in campus development now will have a greater purchasing power than would money invested in subsequent years if current inflation trends continue. It is estimated that interest charges on bonds will cost less than the loss in purchasing power from inflation if these facilities are acquired on a pay-as-you-go basis.

2. Development of the campus at an early date will make it more functional, beautiful, and convenient. If the campus is to be developed on a pay-as-you-go basis it will delay the completion for several years.

3. Most of the visitors to the Chaffey Alta Loma campus are thrilled with what they see and then inquire: "When are you going to finish the landscaping and the parking lots, and when can Chaffey hold its athletic contests in its own stadium?" When these items are completed, Chaffey College will be an object of pride to every taxpayer, student, and voter in the Chaffey College District.

UHS Linguists Score Honors At Annual College Field Day

Upland High School's linguists took first place in the small high school division at the annual Valley College Language Field Day on Saturday.

Competing in four language divisions were 2,250 students from 76 schools in San Bernardino, Riverside, and Los Angeles counties. The event was sponsored by the Valley College, and by the Kiwanis Club of Uptown San Bernardino.

Norte Vista, Indio, and Twentynine Palms high schools received honorable mention in the division of the winning Upland Highlanders.

Enthusiasm ran high at the event, and the applause and roars of appreciation sounded more like a top athletic event.

Joseph Jennings, UHS language department co-chairman, said, "This is proof positive of the interest in, and the quality of foreign language instruction at Upland High School." He said that there was no pressure or extra coaching, and the students volunteered to compete.

"You might say that our youngsters simply took on all comers. In some cases, our students had no idea the area of participation until they got on the bus. This is genuine reward for excellence."

He concluded by saying, "I thank all the students for their participation and am most proud of their achievement and unselfish efforts."

Bringing home the handsome trophy were: Jeanine Dastrup, reading comprehension, 1st place Spanish; Kelly Pauli, interpretive reading, 1st place Spanish; Patsy Giardana, round table, Spanish, 3rd place. Susannah Brown round table, French, 2nd place; Malcolm Lewis, German spelling, 2nd place; Ian Brodie, German picture description, 1st place; Cecilia Alvarado, German reading comprehension, 1st place; Jaak Sepp, German reading comprehension, 1st place also.

Council Considers Bonds

For Water

The Upland City Council, apparently backtracking on its hurried passing of two 'emergency' water ordinances on Feb. 27, decided Tuesday night to check into the issuance of bonds to finance improvements and expansion of the water system.

No decision was made on the exact amount of the bond issue to be presented to the voters nor whether they would be General Obligation or Revenue bonds.

The council authorized the City Mamager, Elwin Alder, to work with the engineering firm of J. Montgomery to prepare necessary material which will lead to a decision on size of the bond issue and facilities needed. The estimate was for a one million dollar bond issue.

This action followed an unpublicized meeting held Monday night with Mayor Pro Tem W. H. Kistinger, Councilman Robert Marriott, the City Manager and several residential developers. The meeting was held in an attempt to reach a solution on water charges more to the liking of developers.

Subdividers had objected to the Feb. 27 council action of passing the two emergency ordinances. One requires water stock to be made available to the city when rezoning to residential is accomplished and the other places a "tap on" charge for each

USC Progress Report Due

From the Candidates

Candidates State Why They Should Receive Your Vote

(Editor's Note: Each of the six candidates for the Upland City Council in the coming April 10 election were asked by the NEWS to submit their answers to the question: 'Why should you be elected rather than other candidates?' This question was answered by five of the six candidates as follows:)

ABNER B. HALDEMAN

"I would like to mention just a bit of my philosophy in what I choose to call real representation. Upland is a city of people who are proud that they live in Upland. You, as the citizen of Upland, are sincere in attending the church of your choice. You are sincere and you are interested in government. This is evidenced by various groups who make their wants and wishes known to the Councilmen. Further evidence of the true, solid character of the people of Upland is designated by their orderliness when attending Council meetings.

As a public servant the last eight years, it has been my philosophy to guide in an orderly manner the growth and progress of Upland. I have tried to ferret out and determine what is good for those already here in the city of Upland and what is good for those coming after us. This is considered the very essence of planning.

I always try to remember that I am representing all the people in Upland and even though there are those who differ on some specific points of representation. A major question the Councilman must ask himself at all times is, 'Does the item conflict with good planning as I represent the people and/or does it conflict with conscience as some would term it?'

It is with these things in mind that leads me to believe that your city government should operate, not only with an area of concern always manifest for every problem, but also with true concern manifest as to how any decision will affect the future of Upland."

JAMES L. CHRISTENSEN

"I represent the householder without any strings attached. While my opponents are householders, they are really representing other interests. I am a householder, first, last and always; this is the biggest voting group in Upland, and I want to represent them."

A.M. 'MAX' HAWKINS

"A life-long interest in this city and three years on the Planning Commission qualify me to handle the job."

GERALD R. WILSON

"I do not necessarily think that I should be elected rather than the other candidates because I don't know all that they themselves stand for. I think that the majority of the candidates have the best interest of Upland at heart. The only thing that I can say is that my interest is in the people and City of Upland, to do the best I can for them at which time decisions have to be made. We can't really tell the value of a candidate until we see how the decisions he makes benefits the community. I also want to stress that a councilman should be available to the people of the city and act as their spokesman in city government."

WAYNE D. BLANTON

"I have a very good knowledge of our water situation, more so than most of my opponents. I have no ties with any political group or organization which might effect my judgement on the council. Also in my vocation I can work for the good of the community without worry of offending a few people."

STELLAR PERFORMANCES in the art of languages were given by these Upland High School students at the recent Valley College Language Field Day in San Bernardino. UHS won top honors competing against 76 schools in three counties.

Back row, left to right: Ian Brodie, 1st place in German picture description; Malcolm Lewis, 2nd place, German spelling; front row' Jeanine Dastrup, 1st place, Spanish reading comprehension; Cecilia Alvarado, 1st place, German reading comprehension; Susannah Brown, 2nd place, French round table; and Jaak Sepp, co-winner, German reading comprehension.

It is hoped that the clinic will prepare the boys for the tryouts on the following Saturday. Boys from the Upland High School baseball team will assist in the clinic.

Joseph Jennings, UHS Spanish instructor, said that the public is invited. The price of admission is—that all conversation, comments, and critiques must be made in Spanish.

The film is made from the novel of the same name by Romulo Gallegos of Venezuela. The theme concerns the rise of the middle class of people against dictators.

All members of the community who are interested in Spanish, and the ways of life below the border are invited to polish up their Spanish and attend.

Colt League Sets Meet

The first general meeting of the Upland Colt League will be held at the Upland City Hall, 177 "D" Street, at 8 p.m. Wednesday March 28.

All persons who are interested in the coming year of the Upland Colt League are welcome.

Chaffey District Forms Curriculum Council

The Chaffey High School District trustees Monday night authorized the formation of a Curriculum Coordinating Council.

The new group, composed of one coordinator from each of the four high schools and the Superintendent, will be responsible for curriculum development at the local high school level and to coordinate, at the district level, the standardization of instruction

In addition, trustees authorized the establishment of the position of Curriculum Coordinator at Chaffey High School. Upland, Montclair and Alta Loma High Schools have indicated that no change would be required at their school level to provide a coordinator for the council. Chaffey has had no individual assigned to this position.

Need For Counselors

The need for additional counselors in the Chaffey District was discussed by the trustees and the administration.

According to reports, the ideal ratio of students to counselor is 250-1. Upland presently has a ratio of 315-1 and Montclair 384-1. Next year the expected ratio at Upland will be 333-1 and at Montclair, 398-1.

Plans are to add one more counselor to the Montclair staff and one more at Chaffey next year. Because of the new Alta Loma High School opening in 1963, which will take the student load from Upland, there will be no counselor added at Upland High.

Preliminary Budget

The first preliminary budget for 1962-63 was presented to the trustees by Assistant Superintendent Edwin Hunt. Hunt stressed that many changes would be made prior to the final adoption and that this presentation was strictly a preliminary report.

The proposed expenditures showed a total of $5,394,348 which is $1,235,626 over this year.

The trustees and administration will meet in a seminar session on April 9 to discuss the preliminary budget.

Other Action

In other action, trustees authorized that an application for accreditation of Montclair High School be submitted as soon as possible as well as an application for membership in the Western Association of Schools and Colleges. Upland and Chaffey, already accredited, are automatic members of the association.

- authorized the district to send the athletic trainers from Upland, Montclair and Chaffey High Schools to the June convention of National Athletic Trainers in Albuquerque.

- granted a 17-foot Baseline frontage easement to the county for future road widening in Alta Loma.

- deferred action on the purchase of audio-visual equipment for the district pending further checking.

From the Candidates

Council Hopefuls Tell Voters Their Ideas of Policies

(Editor's Note: Upland City Council candidates were asked to answer the question: **"What new activities and policies do you suggest for Upland?"** Five of the six candidates have supplied their answers for information of the voters.)

* * *

ABNER B. HALDEMAN

"As stated in my original philosophy, I do not believe in darting hither and yon for the sake of creating a would-be atmosphere of "a lot is really going to happen.' Constant, positive pushing for the location of proper industries and policies concerning the development for public relations, etc. is always appropo. An illustration of this philosophy is the railroad crossing at Second Ave. approximately six years in the making and I was told many times it would never happen."

* * *

JAMES L. CHRISTENSEN

"Upland is no longer an isolated community. The City Council, with the active help and support of the Chamber of Commerce, must follow a positive plan of cooperation with out neighbor cities. Furthermore, our taxpayers are not given the elementary courtesy of allowing their views to be aired at their council meetings. I believe this should be changed and the council reminded that their first duty is towards the voters rather than towards themselves."

* * *

GERALD R. WILSON

"We need more promotive campaigns and interest by the people for persuading industry to locate in our community."

* * *

A.M. 'MAX' HAWKINS

"Broadening of the recreation facilities and programs for all ages. More leisure time for all is a national trend."

* * * *

WAYNE D. BLANTON

"I would like to see a lot less talk and more action on our park and recreation program."

residential unit when the building permit is issued.

The latter ordinance was the subject of strong objections from developers.

In an informal gathering following the passing of the ordinances, the council decided to meet with a committee of developers to seek "a more satisfactory solution to the financing of water facilities."

This committee recommended the issuance of bonds to finance the needed storage facilities, boosters, and transmission lines as the city grows.

City Attorney Henry Busch estimated that it would take 4 to 5 months for completion of the bond issue. The hope is to place the issue before the voters at the June election.

The report from the City Manager on recommendations of amount and type of bonds is expected at the April 3 council meeting.

SAM MALOOF of Alta Loma will present slides on design and construction of custom furniture to the Upland Woman's Club on March 27.

Mr. Maloof, who has a shop and showroom in Alta Loma, does all his work on his furniture from the design through construction and finishing.

His furniture has been on display in many places throughout the country and has been seen in leading publications.

Furniture Designer Scheduled At UWC Meet

Sam Maloof, designer-craftsman, will show his slides on the design and creation of custom furniture at the tea meeting of the Upland Woman's Club on Tuesday March 27. He is a first generation American, born in Chino, Calif. His parents were born in Lebanon.

He worked as a graphic artist preceeding his service with the United States Army. He had not had any formal training in furniture designing or woodworking, but had always loved to work with wood as far back as he could remember and his one thought when released from the Army was that one day he might have his own shop where he could design and work in wood.

Soon after his discharge he began designing and making furniture, going into it as a full time job in 1948, developing it from the experimental stage to its present stage of fine quality design and craftsmanship.

He now has his own shop and showroom in the center of a lemon grove in Alta Loma. He does all the work on his furniture from the design through the various processes of construction and finishing.

He strives to maintain a high quality, and in order to do this, he prefers to turn out fewer pieces, working alone.

When the designer is also the woodworker, he can feel out the piece as he goes along, making whatever changes are desired from the drawing. Hand tools play an important part in his work.

His furniture has been shown at the following places: California International Home Show, University of Washington, University of Illinois, Los Angeles County Museum, U.S. Information Agency Craft Exhibit at the Saint Paul Gallery (from which pieces were selected for a two-year tour of Europe), San Diego Fine Arts Gallery, Long Beach Art Center, Museum of Contemporary Crafts in New York, Pasadena Art Museum, Scripps College Gallery, Decorator Show in Los Angeles, etc.

Reproductions of his work have been seen in such magazines as: Better Homes and Gardens, House and Garden, House Beautiful, Interior Design, Living for Young Homemakers, L.A. Examiner Pictorial Living, and L.A. Times Home Magazine.

He has designed and made pieces for architectural firms and placed furniture in such places as: Gimble's Philadelphia; Goldwater's, Phoenix; Livingston's, San Francisco; Stix, Baer and Fuller, St. Louis; Liberty House, Waialae, Honolulu; Saks Fifth Avenue, Palm Springs; Henry Kaiser, Sr. office furniture in the Kaiser Center in Oakland and most recently in the new Seibu department store in Los Angeles.

In 1959, he spent six months in Iran and Lebanon as Craft Specialist for ICA. Also in that year he was presented two awards from the Hardwoods Industry Exhibit at the Museum of Science and Industry, Chicago, "in recognition of outstanding achievement in Custom Furniture Design".

Miss Phyllis Croghan with her fiance Donald Bangle

Plan August 24 Wedding

An August 24 wedding is being planned by Miss Phillis Leora Croghan, daughter of Mr. and Mrs. Howard Croghan, 462 W. Arrow Hwy., Upland, and Mr. Donald Ray Bangle, son of Mr. and Mrs. Albert Bangle of Alta Loma.

The future bride and groom were members of the first graduating class of Upland High School and both served on the Student Council in their senior years.

Miss Croghan attended Chaffey College and will graduate in June from Pasadena College where she is majoring in education.

Mr. Bangle is a senior at Pasadena College majoring in chemistry. His future plans center around the study of medicine in the field of obstetrics.

The couple will be married in the Upland First Church of the Nazarene and plan to make their home in Pasadena.

MRS. WAYNE SHILLING of Cucamonga, left, and Mrs. Malvern Gilmartin of Upland, members of the Pomona Valley Lady Anglers, participated in a tree planting program March 10 at Puddingstone Dam Reservoir near San Dimas. They are shown planting Pinus halepensis (Aleppo Pine).

This is the third annual tree planting program at Puddingstone. Seven thousand trees have already been planted by various organizations.

Valle Vista PTA Installs New Officers

Officers for the 1962-63 Valle Vista PTA were elected and installed at the March meeting.

Mrs. Frank Cooke received the president's gavel from Mrs. Reynold MacDonald, outgoing President.

Other officers installed were —Mrs. Robert Jones, Vice-president; Mrs. William Clayton, Secretary; Mrs. Charles Miller, Treasurer; Mrs. William Grigsby, Historian; Mr. Eugene Daily, Auditor.

Mrs. Harriet Stewart installed the officers, using as a theme a rocket in orbit and the officers as astronauts.

Mrs. Delia Segovia, Spanish instructor, demonstrated some of the modern techniques used in teaching conversational Spanish. This is the second year Spanish has been taught at Valle Vista. A Spanish play and dancing was presented by the Fourth Grade class.

Annual reports were given and Girl Scout Troop 163 led the flag salute under the leadership of Mrs. Craig.

Hostesses for the evening were the First Grade room mothers.

MISS NANCY JOAN SCHULZ, daughter of Mr. and Mrs. Lester A. Schulz, 2459 Electric Avenue, Upland, is shown with Technical Sergeant Joan Manley, W A F recruiter at Detachment 609, Los Angeles, after recently enlisting in the United States Air Force, according to Staff Sergeant Warren R. Franks, the local Air Force recruiting representative.

Miss Schulz is at present undergoing basic training at Lackland AFB, The Gateway To The Air Force, at San Antonio, Texas. She is undecided as to the type work she would like to do, however, Nancy is relying on the career counsellors, at Lackland, to help her decide what she is best suited for.

Nancy is a graduate of Upland High School, attended Fullerton Jr. College for one year, and completed one semester at Chaffey Jr. College. She was active with the Rifle Club, in High School, and was a member of the Catholic High Group of Whittier, while attending Fullerton Jr. College.

Nancy has intentions of continuing her education, while in the Service, and possibly in a year will make application for an educational program, Air Force sponsored, that will give her a chance to attend college in order to receive her Bachelor's degree.

From the Candidates

Four Candidates Answer Question On 'Water Rights'

(Editor's Note: The question **"How do you stand on the problem of rezoning property to residential including water rights?** was asked of all six candidates for the April 10 election for three city council seats. Only four of the candidates favored the voters with their answers.)

* * *

JAMES L. CHRISTENSEN

"I believe this is a time for reflection. Differing opinions over the recent council decisions have already been voiced and I do not think it would be proper for me to comment on them until the various legal questions have been clarified. At this point, however, I feel the council's actions are typical of so many other occasions when they have taken action without first consulting all concerned groups. I believe the council could avoid such unpleasant spectacles as this water dispute by hearing the people before, not after, they take action.

* * *

GERALD R. WILSON

"I feel that the city should have the right to acquire the water rights of agriculture land that is zoned residential for a fair price. How this should be handled will require the studying of all the facts and problems concerning water rights, of which I do not have access to."

Michael Zwettler

* * *

A.M. 'MAX' HAWKINS

"When agricultural land changes to residential use, the stock that represents the irrigation water should be acquired by paying the 'going' price for that stock, not by ordinance. By 'going price' I do not mean a premium of any sort. Persons who overcharge any form of government are shortsighted."

* * *

WAYNE D. BLANTON

"I feel the city should receive the water from our developed property. But, I also feel the city should pay a fair price for the water."

Zwettler Awarded Wilson Fellowship

Michael J. Zwettler, 21, son of Mr. and Mrs. Robert Zwettler, 1250 N. Laurel, Upland, has been awarded a Woodrow Wilson Fellowship for graduate study at Harvard University.

The Fellowship grants Zwettler full educational costs plus $1,500 for living expenses. If merited, the university will also receive a grant for continuation of his studies beyond the first year.

Presently a senior at the University of Notre Dame, he was notified of his award on March 3 for the 1962-63 academic year. Zwettler plans to take graduate work at Harvard's center for Middle Eastern Affairs, concentrating on Persia.

Zwettler followed an interest in languages and the history of the Ancient Near East and early modern Europe, political theory and metaphysics. His background also includes music and he recently composed one of his compositions into a Sonata. He will graduate cum laude from Notre Dame in June.

He attended St. John Basco School in Bellflower, Pomona Catholic High School and two years at Upland High. He was a member of Upland's first graduating class.

While at Notre Dame, he has held two scholarships and has been on the Deans Honor List since his sophomore year. He is a member of the Notre Dame varsity fencing team, an assistant in the English department, associate editor of the college paper and a member of the college of Letters and Arts advisory board.
